WOMEN TRAMPLED TO DEATH BY THROG

PANIC IN MOVING PICTURE HOUSE

Blazing Film and Wild Cry of Fire Do the Business.

TWO PERSONS DEAD, MANY HURT

Houston Street Hippodrome In New York the Scene of a Mad Stampede, in Which Scores Tear and Trample Upon One Another—Fire Itself Out in Three Minutes, but the Damage Had Been Done.

New York, Feb. 3.—Two women were killed and more than a score of men, women and children were badly hurt in a panic at the Houston street hippodrome, a moving picture concern. A blind, unreasoning panic at the shout of "fire" swept an East Side audience of 800 out into the entrance way to the show house, where they clutched and tore and trampled upon each other. The fire itself, the quick flash of a moving picture film, was out in three minutes. The operator himself had smothered the blaze that was the cause of the death of two before the firemen could fight their way through the terrorized crowd to his assistance.

The Houston street hippodrome was formerly a Methodist mission church. It was made over into a moving picture house. An exit was cut on the east side of the house leading into a courtyard by way of a fire escape. At the rear they made four doors, which opened into the vestibule of what was the old church. A broad flight of steps led from the vestibule to the street. It was here that the women died.

The moving picture men put their operator, Irving Steiner, 24, a brother of Charles Steiner, one of the proprietors, in charge of the film. Of a sudden it melted and there was a flash as the flame ran along the film. The spurt of flame burned off a cord which held up a safety shutter in front of the lamp. The whole theater was left in semi-darkness. A small boy who had been peering in through a side door at the workings of the machine cried "fire." There was a pause for a moment then in the darkness; then for a moment there went a swaying movement through the crowd. A woman in the back of the house stood up, clutching at her face, and screamed. Steiner meantime was throwing handfuls of sand on the flames.

When the firemen arrived a band of them clambered over the heads of the struggling mass and, gaining the stairs, threw men and women back into the refuge of the theater, and in a short time had the passage clear.

BANDIT KILLED

Police Catch Two Bandits Robbing Saloon and Shoot One.

Chicago, Feb. 3.—James Higgins, a 35-year-old highwayman, was killed here in a fight with the police. William Cantwell, a companion, was clubbed into submission. Higgins and Cantwell had held up one saloon and were going through the pockets of patrons of another when two city detectives rushed in. Higgins dropped a revolver at the detectives' order, but was drawing a second when Detective Herman Otten shot him through the head.

Queen Bandaged Wound. Rome, Feb. 3.—Paul Getichard of Quebec, a student for the priesthood at the Canadian college here, sprained his ankle while playing football. Bowager Queen Margherita happened to be passing in her automobile at the time and insisted on bandaging the injured tendon. She left her automobile and had the young man carried back to the college, while she stood in the rain and waited half an hour for the return of the machine.

TO GIVE M'COMBS GOLD CUP

Presentation of Gift in Appreciation of His Services.

New York, Feb. 3.—William F. McCombs, chairman of the Democratic national committee, is to be presented with a large loving cup by the members of the committee Wednesday afternoon at Democratic national headquarters in the Fifth Avenue building.

The cup is 24 inches in height and mounted upon an ebony base and valued at \$1,500. It is suitably inscribed as a token of the appreciation of the associates of Mr. McCombs of his work in connection with the campaign.

Norman E. Mack will make the presentation speech, and other members of the national committee, together with many of those who were associated with the committee, will be present to see that it is properly dedicated.

Postoffice Finally Gets Over The Hill

EXCEED EXPENDITURES

Postal Receipts Heavy According to Postmaster General's Report.

Washington, Feb. 3.—Postmaster General Hitchcock's annual report is notable for one recommendation that it does not contain. Nowhere in the summary of the report made public by Mr. Hitchcock is there a reference to government ownership of the telegraph lines of the country. It will be recalled that Mr. Hitchcock's annual report a year ago contained such a recommendation. According to the report, the fiscal year which ended June 30 last was the first since 1883 when the postal receipts exceeded postal expenditures.

WILL CONFER THIS WEEK

ONE-TERM IDEA HAS THEIR GOAT

House Democrats to Discuss the Works Resolution.

MEETING TO BE HELD THIS WEEK

Will Take No Action in the Matter Until They Have Ascertained the Views on the Subject of President-Elect Wilson and William J. Bryan. Resolution as Passed by Senate Held Somewhat Vague.

Washington, Feb. 3.—A conference of the Democratic house leaders will be held early this week to determine what action, if any, shall be taken at this session on the Works resolution, passed by the senate, proposing a constitutional amendment fixing the term of the president at six years and making the chief executive ineligible to succeed himself.

It was said that many of the influential house leaders are opposed to the consideration of any business during the remaining days of the session aside from the routine appropriation bills. The belief is quite general in the house that if the Works resolution comes for a vote it will be speedily passed.

It may be stated on authority, however, that the house leaders will take no action on the Works resolution until they have ascertained the views on the subject of President-elect Wilson. W. J. Bryan also will be consulted by the house members who are recognized as spokesmen.

The Works resolution is regarded as somewhat vague in one particular. Constitutional lawyers appear to be uncertain as to what effect it would have on President Wilson. Some of them are inclined to the belief that, if ratified by the states before the expiration of the term for which Governor Wilson was elected, two years would be added to the life of Governor Wilson as president. A contrary view is held by others.

A hullabaloo has been raised over the one-term resolution by friends of Colonel Roosevelt. They declare that the measure is aimed at the colonel, and for that reason they are opposed to it.

President of Iron Workers Furnishes \$70,000 Bond.

Leavenworth, Kan., Feb. 3.—Frank M. Ryan, president of the international iron workers' union, serving a sentence on conviction of conspiracy to transport dynamite in interstate commerce, was released from the federal penitentiary here on \$70,000 bond. He took an early train for Chicago. Ryan is the seventh of the 33 men convicted at Indianapolis to be released on bond.

General Daniel E. Sickles Under Fire From Many Sides

Copyright by American Press Association.

GENERAL DANIEL E. SICKLES, the aged veteran of the civil war, was under fire at his own Waterloo recently when he was arrested on a charge of misappropriating \$23,476 from the state of New York. He was alleged to have used this amount of the funds of the Gettysburg monument commission for his own use while chairman of that body. A bond of \$30,000 was secured for General Sickles, and a popular movement was started to subscribe the amount of his shortage because of the part he had played in the war and particularly at Gettysburg, where he lost a leg. The sea of trouble was particularly stormy for the aged general. His wife, who was separated from him, had helped him out financially before and offered to do so this time on conditions he would not meet.

Solons Map Out A Busy Time

WEEK OF COMMITTEE WORK IN ASSEMBLY

Enough Material on Hand to Keep the Solons Busy.

Columbus, O., Feb. 3.—This will be a week of committee work in the legislature. Enough material is on hand to keep every important committee busy revamping bills, and there will be numerous public hearings.

The militia probe was started today when Adjutant General Wood made a statement to the probers of necessary expenses to keep up the military establishment of the state and suggested reducing the number of infantry regiments from eight to six as preferable to anything like a horizontal cut in appropriations for maintenance.

Announcement of the joint subcommittee to draft the compromise saloon license measure will be followed by quick work under the prompting of Governor Cox and the early submission of the committee bill.

Tomorrow the house judiciary committee for the second time will take up the Bigelow bill to abrogate the 50-year franchise of the Cincinnati Traction company. Wednesday the same committee will consider one of the most revolutionary in effect of any measure before the general assembly, the Reid bill to establish the Torrens land tenure system, permission to adopt which was voted into the constitution by the people.

Wednesday evening will be given (Continued on Page Eight.)

South Visited By Great Disaster

MILLION AND A HALF GOES UP IN SMOKE

Savannah's Water Front the Scene of a Conflagration.

Savannah, Ga., Feb. 3.—Practically a half mile of the most valuable portion of Savannah's water front was razed by a fire that did \$1,500,000 of damage and for several hours threatened the city with the most serious conflagration it has experienced in many years. The magnificent wharves of the Merchants' and Miners' Transportation company's warehouses, filled with freight just brought into port by steamers from Baltimore and Philadelphia, were quickly turned into a ruined mass by the flames. Large storage warehouses filled with many articles of value were wiped out by the fire in a short time.

The heaviest losers are the Ocean Steamship company, which owned the docks under lease to the Merchants' and Miners' Transportation company; the American Steel Wire company, which had an immense storage warehouse filled with its products intended for distribution to many points in the south; the Conklin Tin-plating company, which also has a distributing point here, and the Crane company, large dealers in plumbing supplies. The Atlantic Coast Line railway office, with valuable records, was also destroyed. The planters' rice mill, a few blocks from the center of the conflagration, went up in smoke with the river front property.

Turk Envoys to Remain In London Until Resumption of Strife.

WILL AWAIT BULGAR ATTACK

Immense Quantities of Food Supplies and Ammunition Accumulated by the Ottomans During the Armistice. Future Fighting on Turks' Part To Be Marked by Savage Despair—Plan to Starve Adrianople Abandoned.

Constantinople, Feb. 3.—An official statement was made to the effect that the porte had directed the delegates to the peace conference to remain in London until the war had been recommenced and had also ordered the Ottoman troops at Tchataldja to abstain from firing on the Bulgarians until they were attacked, thus leaving the responsibility for a renewal on the allies.

Thus the Ottomans, who, with the exception of the Montenegrins, are the only delegates left in London, remarked that nobody could accuse them of not having done all that was humanly possible to come to terms. Animated by a humanitarian spirit, they added, Turkey wished to avoid useless carnage and wished also to show deference to the advice of the powers, although Europe had been unfair toward Turkey.

Grand Vizier Mahmoud Shevket Pasha, expressed his desire for peace, but not with dishonor.

The apathy of the populace at Constantinople on the eve of the apparent resumption of the war is perhaps the most striking feature. But for the newspapers nobody here would guess that anything out of the ordinary was impending.

It is said that immense resources of commissary and ammunition have been accumulated during the armistice, and that future fighting will be marked on Turkey's part by savage despair. Newspaper organs of all parties are appealing for unity in the face of the enemy and an unswerving support of the government in an effort to save Ottoman honor and Ottoman soil.

The plan to take Adrianople by starvation has evidently been abandoned, the Turkish commandant having proved his ability to furnish supplies indefinitely for the fighting men and the civilians within the town.

FOUR DEAD IN FIRE

Apartment House In Sacramento Totally Destroyed.

Sacramento, Cal. Feb. 3.—Four are known to have perished, two more fatally injured and 10 seriously hurt when the new St. Nicholas apartment house was destroyed by fire. Fire originating from a defective oil burner in the engine room of the building spread with such rapidity that the 80 or more guests had scant time to escape. Those whose bodies were found in the ruins were clad only in their night clothes and had been pinned beneath wreckage of falling walls.

A daring attempt was made to rob the Peoples & Drovers bank Sunday night by cutting a hole through the heavy brick wall which separates the bank from the Palace Moving Picture show, but the fellows missed striking the vault, and the attempt was abandoned, the would-be burglars being either frightened away or realizing that they had blundered, had no more time in which to continue their nefarious work.

The attempt was discovered about eight o'clock Monday morning, when Elza Long, who works at the Palace show, opened up the place and found that unwelcome visitors had been there before, and had made a vain attempt to rob the vault of the Peoples & Drovers bank by cutting a huge hole through the 14-inch brick wall.

The hole was large enough to admit the body of a man, and it was apparent that the men sought to penetrate the vault of the bank, which is located against the wall adjoining the picture show, but missed the vault fully 20 feet, the hole opening into a rear room of the bank, and some four feet from the rear of the room. While the opening on the side from which the work was done was large enough to admit the body of a large man, only a small hole had been made through the other side.

The piano in the Palace had been moved from its place against the wall, and the opening made immediately back of where the piano had stood. A quantity of paper and part of a drugget, together with some clothes in the place, had been used

to drop the brick upon so there would be no noise. A bushel of the broken brick and mortar lay upon the mass of material used to deaden the sound. No trace of a clew could be found, and it was evident that the tools used in removing the section of wall had been rendered nearly noiseless by muffling. Entrance had been gained to the place by using a jimmy on the rear door, and forcing the latch. The falling snow had covered up all tracks, so that when Chief McCoy visited the place about the only evidence from which to work was the yawning wall where the brick had been removed.

Whether the work was that of professionals or amateurs, has not been determined. The work, outside of missing the vault so far, had many marks of professional work, but the miscalculation as to the location of the vault was very amateurish.

Entrance might easily have been gained to the rear of the bank by forcing a window, and it was evident that the would-be burglars' intention was to pierce the walls of the vault.

However the strong box of the P. & D. bank is deceptive, and if the fellows had succeeded in striking the vault they would have been forced to cut through a foot of cement, a heavy steel lining, and then would still have had the strong safe to contend with before the money could have been reached.

Two or three strange men were noticed in the city Sunday afternoon, and their presence was noticed and comment upon their actions was made.

Had the burglars succeeded in cutting through both walls, the steel lining and cracking the safe, they would undoubtedly have been richly rewarded for their night's work.

It was an easy matter for Mr. Groundhog to see his shadow Sunday, and those who believe in the tradition of six weeks more cold weather if he beholds his shadow, point to the heavy snow which commenced falling at the close of Sunday.

The snow commenced shortly before midnight, and is by far the heaviest of the season.

Xenia Defeats Y. M. C. A. Team

Outclassed at nearly every stage of the game, the Y. M. C. A. basketball team went down to defeat with a 54 to 22 score chalked up against them.

The Xenia Bradys showed what several years of training will do, and their superb team work was simply too much for most of Washington's men. The first half stood 26 to 6 in favor of Xenia, and it was seen early in the game that it was only a question of how large the score would be in Xenia's favor. The last half was more evenly balanced up, the Y. M. C. A. team making many of their points on foul goals.

Jefferson and Mobley, of the local team, were both handicapped by bad legs, the result of previous games. There was a noticeable amount of fumbling on the part of some of the team, and some of the fumbles were costly.

Field goals—Schultz, 8; Whittington, 8; Baldner, 7; Smith, 3; Mobley, 2; Fraber, 2; Peterson, 2; Jefferson, 1; Beldin, 1. Foul goals—Mobley, 6; Baldner, 2.

Wm. Stevens Dies in Texas

A large number of former friends in the city regret to learn of the death of Mr. Wm. Stevens, at the home of his daughter, Mrs. Mary Stafford, at Aldine, Texas, the 15th of January.

Mr. Stevens was a well known paper hanger of this city and lived here all of his life until he and his wife joined their daughter in Texas about five years ago. Mrs. Stevens died soon after their removal.

Mr. Stevens has been in failing health for several years.

Membership Campaign For "400 in 4 Days"

Y. M. C. A. Launches Big Movement Tomorrow Evening When Banquet Will Be Held--Ten Teams of Nine Men Each Will Conduct Campaign Under Leadership of Edw. Fite, Captain General.

Tonight will witness the launching of the "400 in 4 days" membership campaign of the Young Men's Christian Association, and great enthusiasm prevails among those who are on the teams which have been selected to take part in the campaign.

Tomorrow night the Capt. General, Edward Fite, and ten teams, consisting of a captain and eight men each, together with the general committee, will meet at the Y. M. C. A. at 6:13 and take supper together. At that time the organization will be perfected, and the campaign for four hundred new members will be launched.

Then during the four days' campaign the entire body of workers, nearly 100 strong, will meet each night at 6:13 and take supper, after which reports from the various captains will be made, and progress noted.

The ten teams are divided up as follows: South Side Business Men Salesmen; Clerks, Dormitory club, Juniors, Industrial Crowd, Professional Men, North Side Business Men, Life Problem club and the Basketball bunch. These teams are all headed by capable workers who have entered into the spirit of the coming campaign and are determined that the now familiar "400 in 4 days" will, at the close of the week, be a reality. The campaign closes Saturday night.

Each captain will have every member of his team present at the supper tomorrow night, and all information, together with cards and literature will be distributed to each one.

The campaign will not be confined to the city alone, but will be carried to all parts of the county, and a merry scramble to outdo each other will undoubtedly result between the various teams.

All are looking eagerly forward to the opening of the campaign.

Remember, the M. E. church has a seating capacity of 1200. We will find room for you tonight.

IN SOCIETY

A marriage of pre-eminent social importance in Washington, was quietly solemnized Monday afternoon, at three o'clock, when Miss Fanny Vilas Dahl, daughter of Mr. and Mrs. H. B. Dahl, and Mr. Conrad Schweitzer, Jr., of South Orange, N. J., were united in wedlock by Rev. Frederick E. Ross, of Grace M. E. church.

The wealth and prominence of the bride's family brings to the nuptials widely extended interest, her father, Mr. H. B. Dahl, being treasurer of the Midland Grocery Co., of Columbia as well as president of the Dahlman Grocery Co., of this city, and is actively connected with the foremost of Washington's business enterprises.

His daughter has had every advantage of education and travel, and is one of the loveliest of girls, winning friends in whatever circle she moves. The marriage is the outgrowth of an early romance begun when Miss Dahl was attending Miss Fearnley's school in New Jersey, four years ago. She is still quite young, graduating from the National Park Seminary, Forest Glen, Md., but a year and a half ago.

The bridegroom comes of a fine old Swiss family, and is the son of a retired banker, now making his home in South Orange, N. J. He is an exceptionally brilliant young fellow, who is already following in the footsteps of his father and connected with The National City bank of Akron, O. Mr. Schweitzer has traveled much of the time since leaving his alma mater, St. Johns school of Medicine, N. Y., and has just returned from a trip to Panama.

In accordance with the urgent wish of the young couple, a simple ring ceremony was performed, with only the immediate families in attendance. The bride looked exceedingly fair and winsome in her going away gown, a chic-tailored suit of dark blue broadcloth, with bodice of white lace draped with dark blue chiffon, and silver garniture, toque of black velvet she carried a beautiful bouquet of violets and orchids.

A wealth of floral decoration gave added embellishment to the palatial home. American Beauty roses filled tall cut glass vases and exquisite gift baskets of Kilarney roses, simlax and fern and Marechal Neil roses and yellow and white snap dragons were effectively placed, with a note of color in French bouquets.

A luncheon, perfect in all its appointments, were served to the wedding guests at 1 p. m. and was followed by the simple ceremony. Mr. and Mrs. Conrad Schweitzer and daughters, Misses Mary and Margaret, of South Orange, are the guests of Mr. and Mrs. Dahl, who entertained with a handsome dinner in their honor Sunday night.

Mr. and Mrs. Schweitzer, Jr., left on the afternoon train for a trip to New York, after which they will go to their new home in Akron. Mr. Schweitzer's parents will furnish their future home as a wedding gift, and also have given them a chest of very handsome silver. There were a number of beautiful wedding gifts from the bride's family. The best wishes of many friends will attend the young couple to their new home, although in Washington circles, especially in the younger set, there is a bit of a grudge felt towards the lucky man for carrying away one of its favorite members.

Mrs. Chas. H. Murray gave a piano recital with part of her pupils Saturday afternoon at her home. The rooms were filled with friends of the pupils, who listened with much interest and encored approvingly throughout the program.

The program was well chosen and each pupil did excellent work, highly creditable to the conscientious teacher. The older pupils showed marked improvement since the last recital.

Those who played were Doris Sollars, Frank Porter, Frank Hamilton, Edward Glaze, Ruth Cissna, Maxine Kibbler, Beatrice Porter, Robert Meardon, Marguerite Spellhouse, Nell

Cissna, Mary Walton, Nora Wilson. Little Ruth Marchant delighted the guests with a cunning recitation.

Piano pupils of Miss Minnie Light presented a pleasing program at Miss Light's studio Saturday afternoon.

A number of the advanced pupils were on and many of the numbers were of the finished concert class.

All of the pupils did good work.

Roadbeds Are Badly Damaged

In a number of places on some of the main roads of the county the road beds have been cut down many inches by the hauling of heavy loads across the road from one gate to another, and as a result of the carelessness, deep ruts directly across the road make the places really dangerous, and leaves the public open to really serious accidents.

One man reports crossing such a place on the Circleville pike, a short distance east of town, and was nearly thrown from his automobile, although not running rapidly. Owing to the nature of the ruts, they can hardly be seen until almost upon them, and broken rigs may easily result, if nothing more serious.

W. R. C. SOCIAL SESSION.

One of the most delightful social sessions of W. R. C. was held Friday afternoon at the home of Mrs. Scott Hopkins. Seventy ladies enjoyed cordial hospitality. The beautiful home was made more attractive by the draping of the national colors and jardiniere of ferns. Music was dispersed throughout the afternoon by Mrs. Walter Hamilton and others at pianola. Sociability and good cheer was in evidence as the ladies chatted over their needle-work and exchanged "ideas".

Delicious refreshments were served. Mrs. Hopkins and Misses Doris and Gretchen Willis assisted.

Mrs. George Haynes, of Hillsboro; Mrs. Clara Harper, of Lafontaine, Ind., and Miss Ethel Wilson, of Bloomingburg were out-of-town guests.

The hostesses were Mesdames Virginia Willis, Sarah Sollars, Sarah Evans, Ellen Jenkins, Francis Duffee, Anna Waters, Clara Harper and Miss Lillian Boswell.

Man Found Guilty Of Manslaughter

Doyle Manbevers, charged with the murder of Roscoe Snyder, in Ross county on the 19th day of last December, was found guilty of manslaughter by a jury in the Common Pleas court of Ross county, and will be sentenced to the penitentiary.

Manbevers is the fellow who killed his victim while attending church, and without apparent reason for attacking him. One man on the jury favored making the sentence lighter, but the other eleven won him over after two hours' argument.

Corn Show Ends

The Paint township corn show came to a successful close Saturday night, and Col. M. W. Eckle sold the exhibits to the highest bidder, some of the corn bringing fancy prices under the persuasive powers of Colonel Eckle.

"400 IN 4 DAYS."

Washington and Fayette county people have been doing some tall thinking, figuring and speculating during the past week, on the big placard so prominently displayed in almost every store room window in the city, bearing the unintelligible "400 in 4 Days" inscription.

There has been more head scratching, more donning of thinking caps over these big placards than over any one thing the vision of which has struck back through the eyes and registered its impression on the brains of the people of this county and city for a long time.

Well might they do some thinking, too.

These placards were put up to stir up and set in motion the thinking apparatus of the men and women, the old and the young and the middle aged of the community with the hope and the belief that once started the process of thinking would be continued in lines other than those of mere curiosity.

There is considerable thinking to be done here right now about the Y. M. C. A. and the splendid organization is responsible for the increased amount of thinking which has been going on in this community over these mysterious placards.

The Y. M. C. A. wants the people to think in a pleasant contemplative mood, with satisfaction on the splendid work accomplished and that is the line of thinking which has been mostly indulged in since the erection of the building and the commencement of the real enjoyment of its advantages.

Now we must begin to think about getting more real benefit from this big plant which the good people have builded.

The card "400 in 4 Days" means that the Y. M. C. A. is organized into a flying wedge which is going to sweep through the community with the apex at the rear and the open lines in front. It is going to start at the outside of the county and wind up with the Y. M. C. A. building and all its advantages and four hundred new members in four days.

We must think—all of us—and realize that we have builded a tremendous big engine and we must get the speed out of it.

It's time to "go some" in our new machine.

The limitless possibilities for good in the Y. M. C. A. have been dwelt upon, explained and emphasized until now in this county, there are no longer any "Doubting Thomases". The Y. M. C. A. is a fact, not a hope. Its capacity for good and its good results are demonstrated facts, not theories—not possibilities.

The Y. M. C. A. is not only capable of great good, but is expansive. It is elastic, that capacity is, and increases with opportunity—there is no danger of overloading the machine and no danger of stalling in mountains of opportunities.

Think of the good results to the community, "400 members in 4 Days," will bring. Think of the growth in the institution to take on this added load and deliver it safely at the stations higher up and then those who think will realize and realizing will act and the "400 members in 4 days" will be assured.

This is simply a call to the people to take advantage of that which they have in possession.

While the people are in a thinking mood, realizing the benefits the Y. M. C. A. brings to every member, think whether or not you are getting your full share of the good things which come out of that big plant where the sterling lathes are running smooth and true, day and night, propelled by the current which comes from the one inexhaustible power, turning out boys and men better morally, better mentally and better physically.

Think and keep on thinking until you are sure that you are in line for dividends and then think, if you have cornered all of the good things coming your way that you can hold on to, if your neighbors and friends are each and all of them getting their full share.

These are the things the fathers and mothers and the men and boys want to think about and if it's possible to absorb more benefit go out and get caught in that flying wedge, push your neighbor in, push your friend in. There is plenty for all. "400 in 4 days" of course, why not?

Idle Sons of Idle Rich Baneful to Society

By Professor NATHANIEL SCHMIDT of Cornell University

THE IDLE SONS OF THE IDLE RICH ARE THE GREATEST MENACE TO SOCIETY OF THE PRESENT DAY.

The idle sons of the idle rich are not merely nonentities.

They are actually BANEFUL TO SOCIETY. Morally lax, they contaminate others with whom they come into contact.

They PERFORM NO USEFUL SOCIAL FUNCTION, but live riotously upon their fortune.

The time is rapidly approaching when there must be a limitation to the amount of land or property that can be owned by one individual. Property transmitted from father to idle sons does a great deal of harm to society as a whole. Those who inherit great fortunes should NOT HAVE THE RIGHT TO DO AS THEY PLEASE WITH THEIR PROPERTY OR MONEY. They should be made to render an account to society as a whole.

Poetry For Today

MARRIAGE MICROBES.

The marriage microbe is a bird that's hard to understand,
The short man always asks the tall skyscraper for her hand,
The man who's six feet in his sox will wed for good and all
Some maiden who is passing fair, but only four feet tall.
The brilliant girl who takes the prize and outshines all the school,
Is more than apt to cast her fate in marriage with some fool.
The learned man who knows his books and has a sober mind
Most like weds the dizziest young damsel he can find.
The prettiest of all the girls will wed some cross-eyed gink
Who doesn't look as though he knew even enough to think.
The homely girl most likely hooks the handsome millionaire.
The frivolous maid weds a man who's loaded down with care.
The pious girl is apt to draw some old night-prowlin' skate
Who doesn't think that 3 o'clock is anywhere near late.
The pastor of the church may draw a social butterfly
Who thinks more of her new fall hat than mansions up on high,
The more you try to solve the thing, the less you really know,
Philosophers all gave it up some centuries ago,
The mystery is fathomless, as much now as of yore,
It's only human nature, pure and simple, nothing more.

FOR A GOOD DIGESTION.

A Local Druggist's Suggestion.
It has been said the body is like a machine and digestion and elimination of food are the two great factors to health.

If the digestive organs are weak, the stomach overtaxed, waste matter accumulates in the system—the liver gets sluggish and the blood becomes thin and devitalized.

We want to ask every person in this vicinity who is troubled with indigestion or a weak wornout stomach to try our delicious cod liver and iron tonic Vinol.

We know it will strengthen and tone up the weakened, tired and overtaxed nerves of the digestive organs, create a hearty appetite, and replace weakness with strength.

We just heard of a case of a man in Oneonta, N. Y., who suffered from a bad stomach trouble for fifteen years and had become so weak he could hardly walk—who was cured by Vinol.

Try a bottle of Vinol and if it fails to help you we will give back your money. Blackmer & Tanquary, Druggists, Washington C. H., Ohio.

"COLD LIGHT" IS NEW INVENTION

French Scientist Demonstrates His Illuminator.

CHEAPER AND SAFER, HE SAYS

Professor Dussaud Places Discovery at Disposal of His Government, Which Is Experimenting at Lighthouses With Great Success—Based on Principle of the Repose of Matter.

Paris.—The "cold light" is a new invention which, it is predicted, will revolutionize all forms of illumination.

Professor Branly informed the Academy of Sciences of this discovery, giving the credit of it to his former pupil, Professor Dussaud. Before a distinguished company of ambassadors, academicians and the French aristocracy Professor Dussaud gave a demonstration of his invention. It is based on the principle of the repose of matter, the theory being that, like animal organisms, matter needs rest, or molecular equilibrium. It is known that if one pair of shoes are worn constantly by the average person they will last four months, but that two pairs of shoes worn alternately will last not eight but sixteen months.

The "cold light" is an application of this principle to incandescent electric lamps, the light being concentrated on a single point by all the filaments work-

LIGHTHOUSE WHERE EXPERIMENTS ARE BEING CARRIED ON.

ing successively and projected through a lens multiplying illumination a thousandfold.

The advantages claimed for this light are:

First.—That there is no danger of fire from it because it gives out no heat.

Second.—That it requires 100 times less current, which can be generated by a tiny portable battery.

Third.—That it contains the ultra violet rays, requiring 100 times less electricity, and, with an inexpensive apparatus, can be used for moving pictures in schools, eliminating danger.

Photographers are expected to abandon magnesium, for a "cold light" attachment on a camera gives results with an exposure of one-fourth of the time needed for magnesium.

This invention will be especially valuable for lighthouses, submarines and aerial navigation.

Professor Dussaud has patriotically placed his discovery at the disposal of the war ministry, whose experiments at the Biarritz lighthouse were conclusive. Dussaud paid a tribute to his master, Branly, as the first discoverer of the principle of wireless telegraphy, which he said was afterward put to practical use by Marconi.

KILLS ELEVEN, MAIMS OVER A HUNDRED

Explosion of Dynamite Creates Havoc in a Cuban Store.

Havana, Feb. 3. — Eleven persons were killed and more than 100 persons were injured by an explosion of dynamite in a hardware store at Cienfuegos. A number of the injured will die. The store was wrecked and the ruins are being searched for other bodies. Among the injured who will probably die are Robert Edgar, the manager of the cable office, adjoining the hardware store, and two employees, H. Todd and — Bradley, all Americans.

The owner of the hardware store, Jose Mayo, a Spaniard, is too badly injured to tell the cause of the explosion, which is unknown, but it seems probable that an unlawfully large amount of the explosive was kept in the store. The shock was felt for 29 miles and the damage is estimated at \$500,000.

SHOCKED BUDAPEST

Blunder of Telephone Girl the Cause of a Triple Tragedy.

Budapest, Feb. 3.—Police investigation traced to the blunder of a girl telephone operator a triple tragedy which shocked the Hungarian capital.

Mme. Bela Gross, a married woman, arranged over the telephone a rendezvous with an admirer, M. Feldiak, a prominent bank official of Budapest.

Accidentally the telephone operator switched in a third connection while Feldiak and the woman were talking, and Neuberger, a poor laborer, heard their conversation. Realizing that he might cash in on his information, Neuberger told Gross where he could find his wife and her companion, and when Gross came upon them, Mme. Gross and Feldiak killed themselves.

Neuberger, too, made away with himself, leaving a note which said that he received \$12.50 from Gross for the information that cost two lives.

ARMY REORGANIZED

Plans Made Public by Secretary of War Stimson.

Washington, Feb. 3.—Orders for the administrative reorganization and geographical readjustment of the United States army on a tactical basis were made public by Secretary of War Stimson. The orders become effective Feb. 15 when the present scheme of organization will pass out of existence.

Three army divisions and one cavalry division are created in the territorial limits of the United States by the new orders. These divisions will be located in what will be known as the eastern, central, southern and western departments, with headquarters at New York, Chicago, San Antonio and San Francisco, San Antonio being the headquarters of the cavalry divisions.

Major General Thomas H. Barry will command the eastern department; Major General William H. Carter, the central department; Brigadier General Tasker H. Bliss, the southern department; and Major General Arthur Murray, the western department.

In addition to the departments within the territorial limits of the United States, there is also created the Philippine and the Hawaiian departments. Troops in the other departments, the canal zone and Porto Rico, will hereafter be under the eastern department, while the troops in Alaska will be under the western department.

Automobiles Destroyed.

New York, Feb. 3.—A smoky fire which broke out in the Victor garage did about \$200,000 damage to a hundred automobiles stored there and gave three hours' hard work to the firemen, who answered a four-alarm fire, wrecking three upper floors of the building at a loss of about \$100,000. The Great Northern hotel backs up Fifty-sixth street almost opposite the garage, and the guests of the hotel filled the lobby, main floor and windows facing the blaze.

By Combination.

An Englishman in want of a coachman had an Irishman apply for the situation, when the following conversation took place between them:

"You know, Pat, if I engage you I shall expect you to do things by combination. For instance, if I tell you to bring the carriage around at a given place I shall expect the horse with it, and driving gloves, etc."

"Yes, sorr," said Pat.

He was duly engaged and gave satisfaction. One day his master came to him in a hurry, telling him to look sharp and go for a doctor, as his mistress was ill. Pat was gone for a long time, and on his master's grumbling at him for his delay he said:

"Sure, they're all here, sorr."

"All here?" said the master. "What to you mean?"

"Didn't you tell me to do things by combination?"

"What's that got to do with it?" said the master.

"Well," said Pat, "I've got the doctor, the parson and the undertaker."

The Vanishing Pigtail.

A large number of Shanghai officials, merchants and others cut off their queues, and every day the new fashion is coming more into popular favor. Time was, and that within the last two years, when any reference to this subject among representative people in this country was taboo, while to-day it is a subject comprehensive of discussion, and similarly to the vicious practices of opium smoking and foot binding, the wearing of a "pigtail" is rapidly becoming bad form.—Shanghai National Review.

When Burton Holmes recently gave his celebrated travelogue on "Panama" at Orchestra Hall, Chicago, he was seriously interrupted by continual coughing of the audience. Many a good sermon, lecture or concert, is spoiled in the same way. No one annoys willingly and if people with coughs, colds, hoarseness and tickling in throat would use Foley's Honey & Tar Compound, they could quickly cure their coughs and colds and avoid this annoyance. It is a splendid household medicine and contains no opiates. Blackmer & Tanquary. Adv

**Authorize Retail Druggists to Sell New Treatment
for Cold Troubles on 30 Days Trial.**

**Money Refunded if It Does Not

Leading Druggists Will Give
Away a Limited Number of 25c
Packages Free.**

The wholesale drug houses of Cincinnati and Orr, Brown & Price and the Kaufman & Lattimer Co., of Columbus, have recently imported from North Carolina a new treatment for all forms of cold troubles—something that is a little out of the ordinary. They have issued a written statement to the retail druggists of this city authorizing them to refund the purchase price—25c., 50c. or \$1.00—to any user who is not delighted with the results.

Backed by this proposition the retail druggists are selling this new treatment, Vick's Croup and Pneumonia Salve, on thirty days' trial. All you have to do to get your money back in case you do not find Vick's all that is claimed for it is to mention it to your druggist and the purchase price is immediately refunded—the druggist gets his profit anyway.

The method of taking this treatment is a novel one. In place of being swallowed in the form of a tablet or syrup it is in the form of a salve and is rubbed over throat and chest—in severe cases it is covered with a warm flannel cloth.

This salve is so made that the

heat of the body liberates the vapors of Camphor, Menthol, Eucalyptus, Thymol, etc., which arise from the chest, and pass through the nose and through the air passages to the lungs; at the same time the preparation is absorbed through the skin taking out the soreness. Persons who have tried this new remedy state that after breathing in these antiseptic vapors for one night they find next morning that the head is clear, phlegm loosened and the soreness gone.

Vick's Croup and Pneumonia Salve will be a boon to the mothers of the city, as by its use the little chaps can be kept free from croup and cold troubles without having to injure their stomachs by constant dosing.

No one knows better than the skilled druggist the danger of dosing delicate little stomachs with internal medicines, and in order that their customers may see the advantages of this new external method of treatment a number of the leading druggists are arranging to give away 25-cent packages free. You may be sure that the druggist who gives you a free package has the welfare of his customers more at heart than the interest of his own pocketbook, as this new preparation pays him a smaller profit than the old-fashioned internal medicines you have been buying here, before. It is advisable to present your coupon for a free package early, as the supply to be given away is limited.

Coupon 2 A.

Good at your druggists for one 25-cent package Vick's Croup and Pneumonia Salve. If your druggist has not received his quantity, write name and address on back of coupon and ask him to send your package when he receives his shipment.

At the Empire

In the production of "Miss Nobody from Starland," the musical comedy which will be seen here at the Empire on Tuesday, February 4, Mort H. Singer has broken all precedents in the quality of his offering, in the brightness of his stars, in the gorgeousness of his scenic and sartorial investiture, in the size of his company and all other things that go to make up a brilliant musical comedy. Amy Leslie, critic of the Chicago Daily News was so amazed at its gorgeousness that she wrote: "The production must have cost a pretty round sum of dollars. Golden cloth, and jeweled storms, sumptuous little scenes and beautiful clothes dashing—shown forth capture the eye continually."

NOW Is Your Opportunity For a Bargain

WILLARD E. MARTIN

Do Your Bargain Hunting With Care

"At a great bargain," warns an old saying, "make pause." You had better not buy at all if you are not certain beyond doubt of the quality of the goods, or unless you are shopping in a store of unquestionable fair dealing.

It is to the credit of THE HERALD'S advertisers that they do not announce impossible bargains in screaming type, nor make promises of quality, which they are not prepared to back up.

You can rely on the statements made by THE HERALD'S advertisers. They are bent upon securing your trade, and mean to keep it, once secured, by giving you the best values possible for your money. They know that it may be possible to sell you shoddy once, but not twice, and they want you to be satisfied.

You can secure buying opportunities from the merchants who advertise in THE HERALD, which are real, worth while, and important. Each one of these advertisements is backed up by a splendid business reputation. Do your bargain hunting with care or rather throw care to the winds and shop with THE HERALD'S advertisers.

A WINTER THAW IN ILLINOIS.

—Reynolds in Portland Oregonian.

INTERESTING BITS OF NEWS

Numerous localities during January, reported snakes usually extremely large and active and of all varieties. The reptiles were always killed after a struggle and the brave vic-

tor's reputation not only for truth but boldness thereby established. The birds that spend their winters in the South also were fooled with the seeming advent of spring. With the snow covering the ground the birds will have trouble finding enough to eat and unless kind-hearted persons aid them they will starve.

"Why should I advertise?" Well here is an example: America wasn't

named after Columbus, who discovered it, but Americo Vespucci who first advertised it.

Xenia has a city sewage disposal plant which the State Board of Health has found to be entirely inadequate, run down and impossible to repair and a nuisance generally.

Frank E. Aid, engrossing clerk of the Ohio Legislature and one time candidate for the legislature from this district, was stricken while in Chillicothe last week and Sunday was operated upon for gall stones. He is reported as doing nicely today.

A Springfield paper of an inquiring turn asks the question, who owns the oldest hen in these United States? From away out in Kansas City comes an answer from a hen lover. A "silver and gray" Hamburg, a retired member of his flock is 18 years young, some 10 years of which

she spent in industriously laying eggs. Can't we find an older hen closer home.

Diamonds That Explode.
In his cantor lecture at the Royal Society of Arts D. A. E. Tutton, the leading expert on crystallography, said that diamonds were probably formed from fused carbon at great unknown temperatures and under such pressures as could only exist at enormous depths below the surface of the earth.

When they came within the reach of the mixer they had travelled upwards, probably by volcanic action, for a long way. It was well known that the relief from pressure afforded in this way caused many diamonds to break, as the volcanic rocks in which they were first embedded decayed into the famous blue clay. Workmen in the Kimberley mines knew that diamonds often exploded soon after being dug out of the earth.

This explosion was greatly assisted by heat, and many accidents had occurred by the Kaffirs hiding newly found diamonds in their mouths. The lecture was illustrated by experiments with ten diamond crystals lent by Sir W. Crookes.—London Evening Standard.

Mr. Henry Abraham has calculated the maximum effectiveness of the telephone for a sound of given pitch and a current of measured intensity. The result shows that there is great room for improvement in this respect. Notwithstanding the apparent extreme sensitiveness of the best telephones, they are, after all, surprisingly ineffective, since they transmit to the ear in the form of sound-waves less than a thousandth part of the energy received from the line.

The Pocahontas Delegation.
Clarence W. Watson, the new Senator from West Virginia, was a delegate some time ago to a Congressional convention down in his district. Pocahontas county was represented in the convention by only one delegate. The chairman asked for a roll-call on a matter that many did not understand. Whereupon the lone Pocahontas delegate arose and said in all seriousness to the assembled multitude: "Wait! The Pocahontas delegation desires to hold a consultation."—Washington Herald.

Trial of Auto Bandits On.
Paris, Feb. 3.—The trial of the riest of the notorious automobile bandit gangs, of which Bonnot and Gardier were the leaders, began today. Bonnot, it will be recalled, was killed by the police at Chôisy le Roi and Gardier at Nogent-sur-Marne. It is expected that the trial of the bandits will occupy 16 days. Three hundred and four witnesses have been subpoenaed, and 67 questions have been drawn up for the jury.

Dies From Explosion Wounds.
Greenville, O., Feb. 3.—Charles McKee, a machinist, died as the result of injuries sustained in a gasoline explosion at his automobile repair shop.

PUBLIC SALE.
Having rented the farm to another man and on a different plan, makes it necessary for the undersigned to hold a closing out sale on what is known as the Wm. Klever farm, situated on the Bloomington and Midway pike, four miles south of Sedalia, five miles north of Bloomington, five miles west of Madison Mills and six miles east of Jeffersonville near Yatesville, on

THURSDAY, FEBRUARY 6, 1913.

Firemen Voting On Strike Situation

COUNTING THE VOTES

Firemen Register Their Will on the Question of a Strike.
New York, Feb. 3.—Timothy Shea, assistant president of the Brotherhood of Locomotive Firemen and Enginemen, arrived here from Peoria, Ill., to take charge of the counting of the votes of the firemen for or against a strike on the eastern railroads, of which Vice President E. A. Bail had temporary supervision. Vice President Bail said that the statements issued last week on behalf of the railroads might tend to convey the idea that the railroads were making fresh concessions, but there were nothing in the concessions that were not offered before negotiations were broken off.

UNKNOWN ARTIST IS A MILLIONAIRE
"Edward Burgess" Is E. B. Butler, an Active Philanthropist, Best-Known Man In Chicago

NEVER PAINTED UNTIL 54
Pictures Accepted for Art Institute and Admired—Not a Professional but a Business Man Who Used Brush at Odd Times.

Chicago, Ill.—Fame has discovered Edward Burgess Butler of Butler Brothers, millionaire philanthropist and leading figure in many movements for Chicago's civic betterment. He and Edward Burgess, the landscape painter, whose identity has been shrouded in mystery since one of his paintings was hung in the Art Institute a year ago, stand revealed as the same individual. Incidentally a remarkable story has been brought to light, and a puzzle solved which has kept art circles buzzing for a year.

On the north wall of the room are two landscapes—peaceful country scenes. One of them is called "The Golden Hill," and is an upland wheatfield with the golden wheat in shocks. The other is an autumn scene. In a smaller gallery is a third picture, a blue and green day in June. These three paintings represent the work of a few spare hours in a Chicago business man's life. They are the work of Edward B. Butler, who three years ago, at the age of fifty-four, made his first attempt to draw and two years later succeeded, as "Edward Burgess," an absolute unknown, in having his picture hung. Mr. Butler did not know he was to stir up such a commotion by his dabbling in art. He admitted, with a whimsical smile, that he felt like an intruder, almost a sacrilegious one, into a field where he had no business, unless he had made it his life's work. Other critics declared, however, that had Mr. Butler not been a great business man he certainly would have been a great artist.

When the landscape by "Edward Burgess" was hung last year it stood out among the paintings on view and critics began to ask each other who the unknown addition to America's landscape artists was. Little by little it got out among Mr. Butler's friends that he was the Edward Burgess whose landscape had been so successful at the exhibition.

"It puts me in a rather a peculiar position to have my paintings hung under by own name," said Mr. Butler. "It complicates matters because I have been known so widely in other affairs in Chicago that people can't help believing the judgment of those selecting might be influenced by it—examples of the work a business man can do rather than examples of works of art."

"I am not an artist. It is presumptuous to say that a man who never drew until three years ago, and even then could only devote odd moments once a month or so to the necessary training, could call himself a true member of that profession. I do claim to know enough about art, however, to know how bad my work is, but it is a great satisfaction to me to do it and the prospect it opens is a very pleasant one to look forward to."

AIDING GIRL STRIKERS

Mrs. Frederick Nathan, Head of New York Consumers' League.

Mrs. Nathan's league, which was formed twenty-two years ago, is quietly doing what it can to improve the condition of a women employed in the garment trades and now on strike in New York. The annual meeting of the league Mrs. Nathan secured six girl strikers to tell of their troubles.

ONE STRIKING FEATURE OF SUFFRAGET PARADE.

Washington, Feb. 3.—Features of the suffraget parade to be held in Washington March 3 will be one baby, one convict, one beautiful woman and one male imbecile. Word has been sent out from the local headquarters asking for applicants for the above positions. The women say they are ready to steal a baby from an orphan's home and an imbecile from the government asylum if necessary. There will be no difficulty about getting a beautiful woman, they say. The collection is wanted to march in the suffraget parade under a banner inscribed: "We are the only persons who have no vote."

Preferred Buttons.

The surgeons were a trifle startled upon finding that they had incidentally sewed up a sponge in the patient. They hurriedly reopened him and extracted it. When all was neatly sewed up once more than came upon the discovery they had forgotten a knife. They opened him up again and found the knife, sewed him up and missed a large wad of cotton. When they had again reopened him, found the cotton and closed him again, the patient opened his eyes in a weary way. "Doctors," said he, "hadn't you better put buttons on me?"—Philadelphia Ledger.

A Literary Evening.

As Jones wended his uncertain way toward her he pondered ways of concealing his condition from his wife. "I'll go home and read," he decided. "Whoever heard of a drunken man reading a book?" Later Mrs. Jones heard a noise in the library. "What in the world are you doing in there?" she asked. "Reading, my dear," Jones replied cheerfully. "You old idiot!" she said scornfully, as she looked in at the library door, "shut up that valise and come to bed."

Wanted Parts, Etc.

Here is one of the best automobile stories of the season. It is taken from the Rochester Times: "When I bought this automobile from you a few weeks ago you said you would be willing to supply a new part if it broke anything," said the purchaser to the manufacturer. "Certainly, sir. What can I have the pleasure of providing you with?" "I want a pair of ankles, a floating rib, a left eye, three yards of cuticle, a box of assorted finger-nails, four teeth and a funny-bore," he replied.

Mrs. S. S. S. Van Buren St., Kingston, N. Y. (full name furnished on application) had such decided benefit from using Foley's Honey & Tar Compound that she shares her good fortune with others. She writes: "Foley's Honey & Tar Compound brought my voice back to me during a severe case of bronchitis and laryngitis. Oh, how many people I have recommended it to." Remember the name Foley's Honey & Tar Compound, and refuse substitutes. Contains no opiates. Blackmer & Tanquary. Adv

Schooner Founders At Sea

IN COLLISION AT SEA

Four-Masted Schooner Rams a Liner and Goes to the Bottom.
Philadelphia, Feb. 3.—The Hamburg-American liner Prinz Oskar, steaming at full speed on the first leg of her voyage to Hamburg, and the four-masted schooner City of Georgetown, scudding under full sail in a fresh northwest gale for Savannah, collided off Five Fathom bank, 40 miles at sea due east of the Delaware capes. The sailing vessel, after ramming a jagged hole in the steel port plate of the liner, which nearly sent her to the bottom, sank. After dealing this mighty blow the weaker vessel, whose bowsprit penetrated two decks and jammed the liner's port anchor, 10 feet into her interior, drifted away and disappeared in seven minutes, sinking by the bow. Captain A. C. Slocum and his crew of seven men were saved after a thrilling battle for their lives.

Famous Hotel Burns.
Aiken, S. C., Feb. 3.—The Park in the Pines hotel, Aiken's famous tourist hostelry, was burned to the ground. There were many narrow escapes, and for a time some of the guests were in immediate danger of being cut off from upper rooms, but all of the 44 guests were gotten safely out of the burning building. Most of the guests were compelled to leave their personal effects behind. Colonel A. E. Dick, manager of the hotel, was overcome by the dense smoke and was rescued in a semi-conscious condition. The property loss is estimated at \$250,000.

As Requested.

A Michigan farmer, who went to the post office one day for mail, approached the clerk in charge and asked him if he had mail for Si Weatherby. The clerk advancing to one of the upper pigeon-holes extracted two letters, one containing \$40, and handed them to Si. As he was about to leave the post office he was observed to scan the envelope very closely. In a few days Si turned up again. Presenting himself to the clerk of the post office, with a broad smile bestowed upon his face, he said:

"Here I am again, by kracky." "Pleased to see you, I'm sure," said the clerk, politely. "Anything I can do for you?" Si seemed surprised. He exhibited his envelope. "It says return in five days," he explained, "and here I am, by kracky."—Samuel P. Moses.

They Were Beginning it Rather Early.

In a summer hotel, where the rooms on the first floor were lettered instead of numbered, a young bridal party were given the suite including the rooms M and L. A new call-boy carrying a basket of fruit for them had forgotten which rooms they occupied, and, coming upon their English maid in the hall, he called out:

"Where can I find Mr. and Mrs. Patrick?" "You'll find Mr. Patrick in h'm," replied the maid, "and his wife is in h'l."

A PUZZLER.

Stout Party—I want two seats, please. Facetious Clerk—Certainly, madam. And what about the little boy?

Hearing Things. She (sternly)—I heard a noise very late. He (facetiously)—Was it the night falling? She—No, it wasn't. It was the day breaking.

R. R. MEN TAKE NOTICE.

Conductor S. L. Miller, Norfolk Neb., on Bonesteel Division of C. & N. W. Ry. Co., recommends Foley Kidney Pills and says: "I have used Foley Kidney Pills with very satisfactory results and endorse their use for anyone afflicted with kidney trouble. They are all right." All railroad men are prone to kidney and bladder troubles, due to the constant vibration of the ears. Foley Kidney Pills are a bracing and strengthening kidney medicine that will always help. No habit forming drugs. Blackmer & Tanquary. Adv

"EVERY LITTLE OLIVE TABLET HAS A MOVEMENT ALL ITS OWN"

Your doctor will tell you ninety per cent. of all sickness comes from inactive bowels and liver. Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil, to act on the liver and bowels, which he gave to his patients for years.

Olive Tablets, the substitute for calomel, are gentle in their action, yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of harmful impurities. 10c and 25c per box.
